

Linux Users' Group of Davis Rebooting LUGOD Trivia Night!

...or how to get the most out of the group

We are relaunching the Linux Users' Group, getting ready for the influx of new students. We plan to raise awareness with promotional materials, better publicity and we are planning an Installfest later this year.

We need as many as possible to come to discuss how we can best manage this, and get your help to rise to a new challenge.

Come to our free meeting at Explorit on 5th Street, Davis on Monday, 17th September at 7pm. Bring your enthusiasm and gifts to help us achieve our new goals. We're also having a trivia quiz with a few carefully chosen prizes.

What is LUGOD?

We advocate for and support Gnu/Linux and free, open-source software solutions. We have two monthly meetings; a social meeting at 7pm on the first Tuesday of the month, and a general meeting (usually a presentation or discussion of a relevant topic) each third Monday. Details and venues are listed on our website.
