

Linux Users' Group of Davis

proudly presents:

Linux Foundation Energy Project

Join LUGOD on March 18th for a presentation by Dr. Lorenzo Kristov, an electricity sector specialist, and LFE founder and Executive Director Dr. Shuli Goodman. Dr. Goodman will share the vision and potential of LF Energy to accelerate the decarbonization of our economies with a remote presentation via Zoom.

LF Energy is a Linux Foundation project that supports open source innovation in the energy and electricity sectors. The plan is to inspire, train, and enable 10,000 developers in the next 10 years, to digitally transform the world's power systems.

This special event is free and open to the public at the Davis Public

Library (315 E 14th Street) from 7-9pm.
